SAVOR THE TRUE MEANING OF EDUCATION

Principal Koo Mei Sze

What is an ideal education to you? What is the ultimate goal of education? Is it to train children to achieve high scores, and to be talented in all aspects? Is it to enable children to get a high-paid job and a worry-free life in the future? Or do you want your children to follow his/her pace and enjoy the growth and learning process no matter failure, mistakes or success? With the technological development of artificial intelligence and big data, the world is changing very fast, and sometimes it is difficult to ensure what the future will be like. But no matter how the times develop, the target of education is people, they are lives. Therefore, the goal of education is to help people grow, allow people to become who they should be, enjoy the fun of self-growth, gain a sense of happiness, and become a happy person.

People do not feel happy because they are perfect and carefree, but when they realize that they are growing in an environment of love. When people know that if they make mistakes and do not perform perfectly, they are still accepted, they will have the courage to continue explore and discover. By that, their lives will continue to be enriched, elevated, show improvement, self-realization, happiness and satisfaction. We hope that parents and we teachers will allow their children to truly enjoy learning and have more initiative, responsibility and creativity to realize their best selves. I hope that schools and families can become stable places and refuges for children, not to condone their mistakes, but to provide love and security, allowing children to take risks, take responsibility, and face failure. Only in this way can they will have the opportunity to make progress and do better, and to achieve real growth.

The uniqueness of life creates the diversity and richness of the world, which also means that every life is irreplaceable, and the disappearance of any life is an irreparable regret. I hope our education can bring more love, happiness and joy to people. "And now these three remain: faith, hope and love. But the greatest of these is love." 1 Corinthians 13:13

Viewing Christmas from Christmas Decorations

Kindergarten-Pastor
Mr Liu Chi Ming

Christmas has not arrived, many shopping malls (no matter big or small) have already put on Christmas decorations. Pacific Place's "A Fairy Tale Christmas" has a winter fairy tale forest, City-plaza has a 9.5-meter-high Mickey's Christmas cabin, K11 has a 15-meter Dior Christmas tree and a fairy tale carousel, MOKO has a knit elf forest, PopCorn has a "Winter Wonderland Candy House", The LOHAS has a "Joyful Elf Town", YOHO MALL has "The Christmas Galaxy & Astrology, Shatin New Town Plaza has a "Water Drop Christmas Fairy Town", Sheung Shui Plaza transformed into a French European-style Christmas town "Xmas Beauté Town", Nina Plaza has "Christmas Candy Wonderland", Tsuen Wan Plaza has "Orange Cat Zhong Zhong Playful Christmas", Metropolis Plaza has "Snowy Secret Garden", and Ocean Terminal has "Merry Spacemas"! Each shopping malls have their own plans to increase the flow of customers and stimulate consumption. Christmas has become a festival for businessmen to make money and citizens to spend money.

Who else knows and remembers that Christmas is for celebrating the birth of Jesus on earth as a human? The Son of God was actually born in the homes of ordinary people! The noble Creator has actually used a manger as a crib! The news of His birth was brought by angels to the shepherds in the wild, and the "Star of Bethlehem" representing the birth of the emperor led the wise men from the east, they Came and give gifts to the new born King! Jesus came to seek and save the lost world. He wants to bring light to the people who live in darkness!

Christmas is actually found because God loves His people and gave His only begotten son, Jesus, to be born on earth, lay down his life for His people and give them abundant life. It is a gift from God. You don't have to spend money because no one can afford it! You just need to understand and accept it to have this gift.

TEACHER INTRODUCTION

Ms Kwok

Hi everyone, I am Ms Kwok Nga Man. I teach the peace group in the senior class this year. I am grateful that the Heavenly Father has led me to teach in the Peace Evangelical Centre Kindergarten (Ngau Tau Kok), so that I can work in this loving campus, get to know everyone and a group of lovely children. I like traveling and go outing. During my travels and outings, I can always discover special creation by our Heavenly Father, and I can also organize myself during that time. I hope that Heavenly Father will continue to use me and let life influence lives.

“Neither height nor depth, nor anything else in all creation, will be able to separate us from the love of God that is in Christ Jesus our Lord.” Romans 8:39

May God’s love be upon all of you! 

Ms Ka Kei

Hi parents and children, I am Ms Ka Kei. Thanks a lot to the Heavenly Father for leading me to the Peace Evangelical Centre Kindergarten (Ngau Tau Kok) and allowing me to work in an environment full of love. I like cooking. When I have free time, I will make different desserts to share with my friends. Each time, the finished product looks different, just like every child is a unique creation of Heavenly Father. I hope that children can get to know our Heavenly Father, be surrounded by Heavenly Father’s love, grow in love, and become someone who will love themselves and others.

IMEI AMS EC Inaugural Ceremony for Graduation and Yearlong Project Exhibition

On 18 November 2023, the International Montessori Education Center (IMEI) and the four schools of Peace Evangelical Centre Kindergarten jointly held the AMS EC graduation ceremony, charity lectures and graduation achievement exhibition. On that day, attendees from other preschool institutions that develop Montessori education, such as The Salvation Army Preschool Education Service and Guidepost Montessori (Hong Kong) has also attended the ceremony. In that way, teachers from various preschool institutions can share their experiences in Montessori education with each other.

Our kindergarten's Principal Koo Mei Sze, Director teacher Hung Lok Sum, Tin Wai Sum and teacher Fung Wai Shan has successfully completed the training and internship, and obtained the AMS Teacher Credential for 3-6 years old children awarded by the American Montessori Society.

After the graduation ceremony, Mr. Kimitoshi Matsuura from Shizuoka, Japan (the founder of Matsuura Gakuen Montessori School and lecturer of Montessori theory at IMEI) shared with all of us the topic of Montessori Education in the 21st Century Model. All teachers who are interested in Montessori education are very inspired and gain reflections.

School Activities

Free school "Vision Screening Service"

Seasonal Influenza Vaccination Program

Track and Field Competition

Our school focuses on establishing good and healthy living habits for our children. Therefore, in addition to inviting professionals from outside to provide "vision screening service" and "seasonal influenza vaccination program" for our children, they will also be given the opportunity to go out and participate in various competitions.

Our school was invited by S.K.H Kei Lok Primary School to participate in the sports meeting relay competition (kindergarten group)

Parent-child trip: Parents' Voices

Go to our social media for more videos

This year, the "Whole School Parent-child Trip" event was held to allow children and their families to get in touch with nature and participate in games that are beneficial to the body and mind. On that day, teachers, parents and children went to the Holiday Farm to have a taste of farming, feeding animals and engage in various outdoor activities.

In the "Interesting DIY Bread Baking" workshop, children can even eat the bread that are made by themselves, which is really a special taste! Of course, there are also a lot of fun parent-child times. Parents and children can experience exciting outdoor slides, bumper cars, parent-child boats and other activities together. It is truly an unforgettable memory!

I had a lot of fun today. Children were able to play and parents also had time to communicate. Thank you to the school for the arrangement!

K2D Ma Moon Jyut Parent

Every year I come back from the parent-child trip with great enjoyment and leave wonderful memories. This year is the last trip that we can join, and I am especially missing it!

K3A Ho Sen Yuet Parent

Not only were the "angels" happy during the school trip, parents were also very happy and prepared a "big picnic" of food together! Thank you to the school for making everything smooth on the day!

K2D Lam Ayils Parent

Thank you Heavenly Father for giving us good weather so that our trip can go smoothly! My child love to feed animals!

K2C Yip Wing Tung Parent

Today I had a different experience. Although I was a little scared, but was brave enough to try feeding the goats, tortoises, and rabbits, making bread, and playing with the stream. Yet, my favorite thing was playing the bumping cars with children!

K1B Chow Tze Wai Parent

Feeling the beauty of nature with the company of small animals, try new entertainment projects, cultivate love and practice courage. What a meaningful learning journey!

K1D Ho Ho Ming Parent

Family-friendly places to recommend

Cha Kwo Ling Promenade

The Cha Kwo Ling Promenade has officially opened in August 2023, it's area is around 1.8 -hectares, it has a waterfront area and landscaped area. The waterfront area is a "Inclusive Park for Pets" where citizens can bring their pets for activities. The landscape platform adopts the design concept of "Playful Nature" and has five themed areas that integrate the five natural elements of air, earth, sky, sunlight and water. It use different play equipment and facilities to connect people and nature. The venue provides 15 different play experiences with a total of more than 60 sets of play facilities, such as climbing features, swings, windmills, children's running trails, tube mazes, slides and tree houses, so as to encouraging children to explore nature and provide sensory experiences.

Address: Cha Kwo Ling, Wai Yip Street, Kwun Tong

Travel: Take the KMB no.40 to Laguna city, take off at Wai Yip Street and walk for around 3 mins;
Kwun Tong MTR B1 exit, walk for around 13 mins;
Or Lam Tin MTR D1 exit, walk for around 15 mins
